I have really enjoyed listened to KLOVE radio here in Tucson because of it's positive and uplifting message that keeps me focused on what is most important in life, mainly God, my family, and living responsibly. The upbeat messages and music have proven to be wonderfully encouraging while driving my truck through rush hour traffic and making the long 30 minute drive home with many people who are less than courteous and considerate! I can't imagine getting on the roadways without the great programming they provide us via the translator stations. Without a doubt, KLOVE provides excellent services here in Tucson and I only wish that they could transmit with more power so that I could listen to it in more portions of this city. Thank you so much for considering my concerns and keeping radio stations such as KLOVE on the air to provide unhindered programming to the residence of Tucson. They are the only positive and encouraging FM radio station we have here. Many blessings to you, Ken Douglas
